Instructions

Set Up:

Print addition cards 2-sided with animals on one side and addition facts on the other.

Cut on the lines and create 3 separate stacks.

Cut out the spinner. You can use the included arrow or a paperclip as the spinner.

Cut out the character markers. Tape the sides of the long rectangle together so the pieces stand up on their own.

I highly advise using cardstock!

To Play the Game:

Spin the spinner to see who goes first.

First player spins the wheel. Advance the number of spaces. Draw a card that matches the color of the space (Blue is Dory, Orange is Nemo, and Red-Orange is Hank the Octopus). Answer the addition problem correctly, and stay where you are. Answer incorrectly and move back one space.

First one to make it to the end wins!
