What is James planning?

Landon wants to play sports. He loves to run and be outside. He likes to play on a team with other monster kids.

He went out and bought a glove, a bat, and a ball. Then he met his friends at a diamond to play.

What game is Landon going to play?

Week 5 Day 3: Persuasive Writing

The monsters want to join the humans and live in our society. Do you think we should let them in or not? Read the following passages and decide which one you agree with most.

Yes

Monsters are beings with feelings and deserve to be treated with dignity and respect. They have never had the chance to live with society before and will change their chaotic tendencies.

they have many strengths that humans do not have and will be valuable to us as well.

No

Monsters are dangerous beings and have no place living near humans. They have never lived in a peaceful society.

We don't know how the monsters will react to living in a town or city.

The monsters should stay where they are, for now.
